

FINALLY WE LAUNCHED...

ANHH... HERE WE GO. BOY! IS THIS FUN

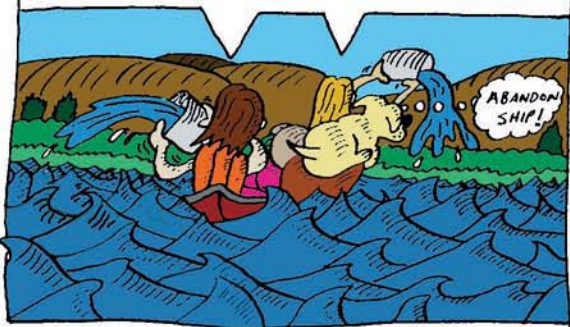

WHAT'S THIS? WAVES? THE GUIDE-BOOK DIDN'T MENTION ANYTHING ABOUT WAVES!

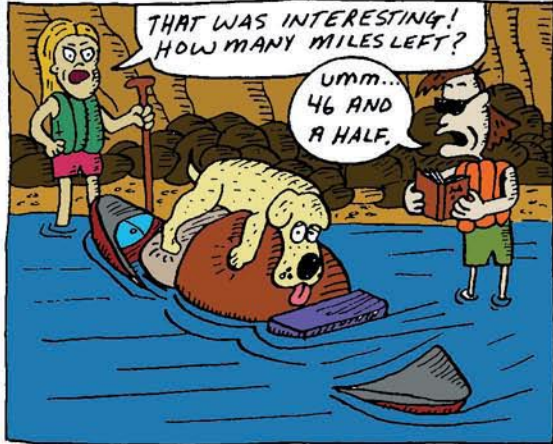

LET'S SEE... HERE WE GO... IT SAYS "AT THE START OF THIS 47-MILE TRIP YOU MAY ENCOUNTER..."

SHUT UP AND START BAILING!

# GET TO SHORE

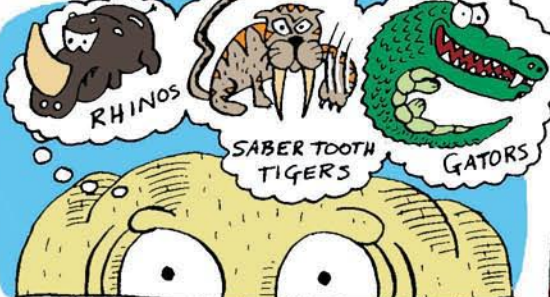

ABANDON SHIP!

THAT WAS INTERESTING! HOW MANY MILES LEFT?

umm... 46 AND A HALF.

LATER WE FLOATED PAST 40-MILLION-YEAR-OLD FOSSIL BEDS CONTAINING EVIDENCE OF ANCIENT EXOTIC BEASTS SUCH AS:

RHINOS

SABER TOOTH TIGERS

GATORS

THE LANDSCAPE IS DECORATED WITH MASSIVE BASALT ROCK FORMATIONS REVEALING THE REGION'S FIERI PAST.

A FEELING OF SOLITUDE CREPT UP ON US AS WE DRIFTED FURTHER AWAY FROM CIVILIZATION, HOWEVER...

NEVER UNDERESTIMATE THE POTENTIAL OF HUMAN ENCROACHMENT.

DO YOU HEAR A NOISE AROUND THE NEXT BEND? IT SOUNDS LIKE A LIVE BAND!

CLARK CANYON

SQUAW BUTTE (3819')
